German Olympic Team will use Juice Plus+ through the 2012 Olympics

Thursday, May 14, 2009

German Olympic Team Press Release

Exclusive "Partner for Nutrition" with Juice PLUS+ until the 2012 Olympics

NSA will appear as the "exclusive partner for Nutrition" with its logo "Juice PLUS+", and will show through the connection, the growing importance of well-balanced nutrition to top athletes – a concern, that also plays an important role in the DOSB: "fitness and healthy nutrition are central subjects that stand highest on the agenda. NSA will make a valuable contribution as a partner", says DOSB general director Michael Vesper. Through the supplying of product, the athletes will benefit directly from the partnership.

"Juice PLUS+" consists of concentrated raw vine ripened fruits and vegetables in capsule form, and is available from the NSA partner. Research done by the company since 1995 regularly proved that the naturally active components in "Juice PLUS+" speed up the recovery processes and strengthen the immune system, among other things.
